PROFESSIONAL SUMMARY

Innovative Frontend Developer with 4years of experience turning complex problems into elegant, high-performing web solutions.

I spearheaded the development of **PalmTechnIQ's e-learning platform**, leading it from conception to launch and now into its Phase 2 expansion.

I also served as one of the **lead frontend architects of Transpay**, a government transportation management system generating ₦2B+ annually and adopted across multiple Nigerian states.

Skilled in **React, Next.js, TypeScript, and Tailwind CSS**, I specialize in building scalable, responsive interfaces that deliver both usability and performance. Recognized for driving collaboration across teams, I thrive in environments where **creativity translates directly into measurable impact**.

SKILLS AND COMPETENCIES

Shopify | TypeScript | React.js | Next.js | JavaScript | Tailwind CSS |

HTML5 | CSS3 | Bootstrap | Framer Motion | Git | Sanity |

Server-Side Rendering (SSR) | Unit Testing | Progressive Web App (PWA) |

RESTful APIs Integration | Team Leadership

PROFESSIONAL EXPERIENCE

Lead Frontend Engineer
ISCE Digital Concept
Present

May 2023 –

- Collaborates with UX/UI designers to translate wireframes, mockups, and prototypes into visually appealing and functional user interfaces.

- Built and maintained the core frontend for Transpay, serving 10,000+ monthly users and facilitating ₦2B+ in annual transactions.
- Ensure cross-browser compatibility, maintaining a consistent look and feel across different browsers and screen sizes.
- Work closely with the back-end development team to integrate NFC technology into the user interface.
- Optimized application performance, reducing load times by 25%, resulting in a smoother user experience.

Lead Frontend Developer

PalmTechnIQ - ISCE Digital Concept (onsite)
2024

July

- Spearheaded the development of Palmtechniq's e-learning platform using React.js, Next.js, TypeScript, and TailwindCSS.
- Architected and implemented full-stack features, handling both front-end and back-end logic using Next.js server actions.
- Designed and developed a user-friendly, dynamic dashboard for students, tutors and admins.
- Designed an automated mailing system serving 3 user roles (students, tutors, admins), reducing manual support tasks by 70%.
- A progressive web application

Junior Frontend Developer

Tax Revenue Collection System Application (Transpay)

- Assisted in developing modern, responsive web applications using React.js, Next.js, TailwindCSS, and TypeScript.
- Integrated RESTful APIs to fetch and display data dynamically.
- Implemented responsive designs and optimized layouts for various devices.
- Features include vehicle management, route assignment, fee configuration, RBAC, waiver flows, GPS tracking, vehicle scanning/charging, and audit logs. Supports real-time notifications (email/SMS).
